Core Competencies

Integrity hires the best talent to meet the need of our clients. We hire certified internal auditors, certified public accountants, certified IT auditors, SaaS developers, web designers and marketing experts with over ten years experience to offer our clients cutting-edge solutions. Our team of consultants have worked in the transportation, education, media, food and beverage, retail, wholesale distribution, financial, and technology industries for over ten years. Our core focus is on audit and compliance, data analysis and IT integration, project management, and marketing.

Competitive Advantage

Integrity created a proprietary system called, CIR, to effectively manage projects. Our management system enables us to collect data in any format the client prefers, allows us to effectively analyze the information using our proprietary knowledge base and highly trained consultants; and gives us the power to deliver results on time and within budget. Our record shows, because we use cloud-based technology to empower our clients, we can exceed expectations. We have managed large and small projects for government, corporate, and small businesses for over 11 years.
